

# FreeMove BlackBerry® Solutions

Easy to install, manage and use

Your people need reliable mobile access to their email and business applications so they can get more done on the go. You need to find the best way to support their flexible working patterns. But mobile email can bring unique challenges to multinational companies, such as central management, data security and integration with your existing messaging systems.

The FreeMove alliance combines the expertise of four leading operators in Europe, each with a sound understanding of local markets, to offer a choice of easily implemented, cost effective mobile email solutions. Set-up, day-to-day use and ongoing operation remain hassle free.

**Fully supported and secure solutions to keep your business in touch and productive at all times.**

## BlackBerry® solutions for MNCs

**FreeMove gives you access to the best local operator offers**

BlackBerry® offers a wide range of popular, easy-to-use handsets, designed to manage push email, browsing, business tools and organiser wherever you are. Many of BlackBerry® handheld models are supported by the FreeMove Members' BlackBerry® service.

Your users can work remotely knowing your company data is safe and secure, while you can manage your users centrally on any email platform. This solution allows you to stay in control of costs as FreeMove give you access to the best local operator deals.

## What does this mean for you?

FreeMove brings the additional value of a complete, end-to-end mobile solution – one that you can co-ordinate centrally and deploy locally to suit your entire workforce.

- **Cost effective:** FreeMove local members offer competitive prices both on domestic and roaming calls
- **Fast deployment:** expert support during server and device configuration
- **Easily integrated:** solutions require no additional hardware, so there's no need to invest in complicated IT equipment or manage multiple accounts

- **Scalable:** you can add unlimited data packages to your existing mobile account via your local operator
- **Secure:** innovative management tools for greater visibility over your mobile devices, as well as security enforcement features such as remote wipe and end-to-end encryption
- **Streamlined support:** your IT helpdesk staff can report any problems directly to your home operator; we'll then work to resolve the issue, keeping things closely co-ordinated via your dedicated Global Account Manager

BlackBerry® for MNCs is available in Austria, Belgium, Czech Republic, France, Germany, Hungary, Italy, Netherlands, Poland, Romania, Slovakia, Spain, Switzerland and the UK.

## The FreeMove alliance

Because you need more than reliable email on the move, we have developed a range of services to help you streamline mobile procurement and management. We've built our portfolio based on years of experience and are working with some of the largest companies in the world.

**In short, we aim to deliver simplicity, greater value and increased control.**

- Global Account Management
- Streamlined Procurement
- Implementation Management
- International Roaming Offers
- Data and Email Solutions
- Central Reporting
- Service Excellence

Together with four leading members Orange, Telecom Italia, Deutsche Telekom and TeliaSonera, the FreeMove alliance operates in almost every country across Europe as well as across the USA, Asia and Latin America.
